

**She is sitting between  
some stones**

**So it's still under my bedroom**

**And then there was this one  
more stone. It was so big that  
we couldn't move it  
out of place**

**Under my bedroom floor, there  
were two stones that we got out  
and placed in various places  
in the garden**

**We moved the floors and when  
we were digging under the  
floor, we occasionally came  
across big stones.  
They were happy to get up in  
the air, instead of lying around  
under the floor**

**Many of the stones have been  
lying under the floor  
of our house in various places**

**Someone is coming over  
and saying something she  
can't hear**

**At first, she just sees his  
mouth move,  
red, round, and remarkable**

**Then his voice becomes  
clearer.  
He is saying something  
about the stones**

***It's nice the way the  
stones lie out here***
